

## AEROSPACE COMPOSITES MALAYSIA SDN BHD

# Procurement Manager

We are in search of leaders with a solid background in supply chain management to lead our global supplier network. Come join our committed team, where we empower our team members to harness their utmost potential through creativity and innovation while cultivating a dynamic culture with transparency and respect.

### Responsibilities:

- Oversee and coordinate material planning and procurement activities, ensuring their seamless alignment with production requirements and the framework outlined in the company's plan
- Ensure the punctual and sufficient acquisition of materials, while also managing and optimizing material inventory levels in strict accordance with the needs of the company
- Actively engage in the negotiation of business terms with the company's valued suppliers, fostering beneficial partnerships including analyzing the proposed terms for the management team's approval
- Conduct a comprehensive evaluation to assess supplier strengths, cost-efficiency, and trustworthiness, and identify potential risks and opportunities, while developing mitigation and execution strategies
- Strategize, craft and implement policies, process documentation, improvements, and cost-saving initiatives under the Supply Chain department for the company
- Stay informed about industry trends and market developments, identifying new supplier opportunities and innovative solutions to meet business needs and address challenges
- Formulate financial plans, budgets and forecasts customized to address the requirements of the Supply Chain department

### Requirements:

- Bachelor's Degree OR Master's Degree in a Supply Chain Management or Technical or Operation Management or equivalent with a minimum of 5 years of related managerial working experience preferably in manufacturing
- Background in Aerospace industry will be an added advantage
- Have a strong commitment to nurturing team growth and talent development
